DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Cole et al [US 4,859,951].

Regarding claim 1, Cole et al disclose an anomaly detection system, as shown in Fig. 1, comprising:

an echo canceller (17) having a plurality of taps respectively associated with a plurality of tap coefficients [Fig. 1; col. 1, lines 15-47; claims 8, 9]; and

anomaly detection logic (i.e. processor) (24) configured to determine a difference between a new tap coefficient associated with one of the taps and a previous tap coefficient associated with the one tap, the anomaly detection logic configured to perform a comparison between the difference

and a threshold (i.e. a reference set) and to detect an anomaly along a telecommunication line based on the comparison [Figs. 1, 2A, 2B, 2C, 2D; col. 1, line 55 to col. 2, line 65; claims 1-9].

Regarding claim 27, Cole et al further disclose the system, wherein the anomaly detection processor is configured to indicate, based on the comparison, a location of the anomaly on the telecommunication line [col. 2, lines 50-54].

Allowable Subject Matter

3. Claims 7-23, 28-33 are allowed.
4. Claims 2-6 and 24-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed Jan 25, 2008, with respect to the rejection(s) of claim(s) 7-21, 23, 28-33 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon

further consideration, a new ground(s) of rejection of claims 1 and 27 is made in view of Cole et al [US 4,859,951].
